THE HASTINGS CHRONICLE.

MEDICAL SCIENCE.

The history of "HOOFLAND'S GERMAN BITTERS," the most remarkable medicine of the day, and which has been so much used and recommended, it can be seen in LITTLE COTTAGE PLAIN, DYSPEPSIA, NERVOUS DEBILITY, and diseases arising from a disordered liver or stomach, plus many of the most astonishing discoveries that have taken place in the medical world. This discovery is now well known, and it is believed, that there are but a few of our friends who may not feel their virtues in their own families or circles of acquaintances, and prove to them own satisfaction that there is at least one remedy among them, that will effect a cure. It is a simple, safe, and economical medicine, which is easily prepared, and will be found to be of great service. It is a rare chance for all Harness-shoemakers, and others who are engaged in what we call "FISTERS' MEDICINE"; but why should this prevent you reading it in an article that has such an array of testimony to support it as Hoofland's German Bitters. Physicians prescribe it, Why not Shoemakers? It is a simple, safe, and economical medicine, and will do it in their own families. Why should you reject it? Clergymen, and those the most eminent, take it; why should not you? Let your prejudice usurp your reason, to the averting injury of your health; you are sick, and require a medical physician.

The Bitters are prepared and sold by Dr. G. M. Jones, No. 418 Arch Street, Philadelphia, Pa., and by druggists and storeskeepers in every town in the United States, and Canada, West Indies, and South America, at 75 cents per bottle. See that the signature of C. M. Jackson is on the wrapper of each bottle.

EVERY FEMALE SHOULD READ THE FEMALE MEDICAL PRECEPTOR!

Especially devoted to DISEASES OF WOMEN, with a full description of the various diseases peculiar to the female, of those incurred or contracted through the agency of the sex, and of those arising from the want of exercise, and want of proper diet.

An Instructor, a Guide, and a Physician, to every woman, in her various stages of life, to inform her of her rights and dangers, as well as the methods by which many diseases may be prevented, and others removed, before they become dangerous.
